

# Notice of 2016 China Solar Thermal Electricity Conference

The Second China Solar Thermal Electricity Conference, which is organized by China National Solar Thermal Energy Alliance, Chinese Renewable Energy Society, Chinese Society of Engineering Thermophysics and Chinese Society for Electrical Engineering, will be held in Hohhot, Inner Mongolia Autonomous Region, China in early August 2016. The conference mainly focuses on exploring the approaches to promote solar thermal electricity( STE )technology into industrialization, and technical economy and industrial policy are also main topics.

## **About the conference**

**Time:** tentatively scheduled for early August, 2016

**Place:** Hohhot, Inner Mongolia Autonomous Region, China

**Organizer:** China National Solar Thermal Energy Alliance

Chinese Renewable Energy Society

Chinese Society of Engineering Thermophysics

Chinese Society for Electrical Engineering

**Host:** Inner Mongolia Power Survey & Design Institute

Inner Mongolia Lenon New Energy Co., Ltd.

## **Paper submission**

Scholars and practitioners in STE field are cordially invited to submit your original research papers to this conference. The Alliance will recommend the accepted papers to *Taiyangneng Xuebao/Acta Energiae Solaris Sinica* for publication.

## **Conference topics**

1. Solar collectors;
2. Medium/high temperature solar receivers;
3. Heat transfer fluids;
4. Thermal storage materials and systems;
5. STE systems design;
6. Grid integration;
7. Reliability and service life prediction of components and systems;
8. Commercial and demonstration projects;
9. Policy and markets;
10. Solar fuels;
11. Solar thermal water desalination;
12. Solar resource assessment.

**Forms of paper publication:** oral presentations and poster

## **Paper submission requirements:**

1. The conference language will be both Chinese and English. Conference presentations are expected to reflect the latest research and achievements of STE both at home and abroad. Papers submitted

should not be published in neither domestic nor foreign journals or presented in any other academic conferences.

2. To ensure an orderly conference process, for those who will do oral presentations, please submit the title and abstract of your presentation in English (Chinese participants should submit that both in English and Chinese) before the abstract submission deadline.

Abstract format requirements:

- English title: in the middle, Times New Roman in 17 pt.
- Author's English name: in the middle Times New Roman in 13 pt.
- English name of author's company and zip code: in the middle, Times New Roman in 8 pt.
- English abstract and English key words: Times New Roman in 8 pt.
- Author's brief introduction: Times New Roman in 10 pt.

3. Please add a brief introduction of the first author(less than 100 words) to the end of your paper.

4. Deadline

Abstract submission deadline: **July 10th, 2016.**

Date of acceptance notification: **July 15th, 2016.**

Full paper submission deadline: **August 31st, 2016.**

5. Please submit your papers to [cstec2016@126.com](mailto:cstec2016@126.com) with a subject of "Paper for 2<sup>nd</sup> China Solar Thermal Electricity Conference". Please provide at least a reliable E-mail Address and write the detailed contact information of the author at the end of your paper, including detailed corresponding address, zip code, telephone number, mobile number and E-mail address.

6. Enterprise propaganda and promotion for its business activities is not accepted.

7. For those who will present in the conference, please prepare your presentation in formats of WORD or PPT. No limits on page number.
